

NATIVE YOUNG

“It’s a constantly evolving tapestry of culture, music and togetherness”.

- When asked how they would describe Native Young - frontmen of the project Yannick Wilde & Mohau Moahloli say,

Beginning in Cape Town as a home recording experiment for Yannick - Native Young has transformed into a super collective of rotating talent across Africa and Europe. A fusion of anthemic uplifting vocals, indie electronica and raw African rhythm - their live show is nothing short of spectacular. Recent accolades include over 2M streams on Spotify for 2021, A SAMA (South African Music Award) for 'Best Alternative Album' with 'Kings', smash single 'Erase' remixed by Black Motion coming in at #1 on the 5fm dance charts in South Africa and playing stand out sets at international festivals Fusion (Germany) and Lake of Stars (Malawi).

As for the future, Native Young will be releasing a brand new album 'Ashes' in 2022 and will be promoting this exciting new release in Europe with an exclusive acoustic trio tour. The storytellers will celebrate their brotherhood with a stripped down show focused on raw emotion, infectious melody and African rhythm. Expect to laugh, dance, cry and sing during this captivating performance.

Music is that ephemeral expression that seems to connect us all and It's this sentiment that boldly shines in the raw and colourful tale of Native Young.
