The essential  
rituals of 2022

'Ritual' is an upbeat Hip-hop/Pop/Trap song about wanting all the finer things in life and manifesting it through what sounds like a 'mantra.

"In this song, I talk about claiming authority, wealth, and success in first person as if its already mine, which is exactly what we should all be doing...speaking things into existence, and training our minds to subconsciously practice these things".

'Ritual' is a bad ass song that makes you feel like a bad ass b\*\*\*\*
