## ROCKWELL NOIZE – Biography

If you like house music - than you'll love ROCKWELL NOIZE

Just Four words are sufficient to describe: passion, determination, reliability and teamwork! And seriously, are the three guys from the south of Germany in there given proof in studio work and emotive DJ sets time and again!

Their flexibility in terms of electronic music and there experimentation they led to some already completed successful gigs in the European region, among others in Germany, Austria, Switzerland, Bosnia, Croatia, England and Ibiza where they are allowed also 2012 to show at the Space what they can.

Rockwell Noize, his real name is Lars and Bjorn, they began their musical career as the duo "Rockwell Noize!" Their DJ career started in 2006 as a highly talented and ambitious DJ team.

After a very short time, the both starters get the attention of bigger clubs in and outside from Germany, and they get the chance to push there dj career very quickly. This possibility could not be both idle and after only one year, they were able to obtain bookings in Southern Germany, Austria and Switzerland.

With a lot of energy and commitment they drove the scene in their area at full speed. Be it with his own event series "Rock that Pussy" or the strong collaboration with the London party label "PukkaUp" whose events they sell now unprecedentedly good to clubs and adherence to escalation mature name DJs parties form.

In 2009 they became resident DJ of Roberto Cavalli Club Tour 2010, and been selected to the newcomers of the Stuttgart region. But never the less they started with their own Brand "Rock that pussy" all of the clubs in Europe. So that 2011 it was inevitable to follow the call from Ibiza.

By their impeccable impulsive Dj Set 2011 at the Pukka Up Boats and Space ( No. 1 Club the world ) the growd rocks straight and thats the reason why the guys get another booking for Ibiza 2012 for two seasons (July - September) ... 2013 they play at Pacha Ibiza and as Highlight together with Sander van Doorn, Afrojack & Dubvision atm Amnesia Ibiza.

Together, the guys stand for a progressive and groovy house sound.

Years of experience in music production build a DJ team with brilliant references, great ambitions and three sympathetic individuals in a perfect symbiosis together. As producers they are under contract with some major labels. This year the guys released a lot of their own productions and remixes.

We can only look forward what the next months and years will be showed us of these hard working musicians! KEEP ON ROCKIN'N!
