PRESS RELEASE

Six years after the release of their debut album, Santamuerte now presents their second LP called **META-MORE-FUZZ**. It contains 12 unreleased songs, composed, arranged, and interpreted by Juan F. Rojas, Sebastián Tamariz, Miguel Merchán, and Daniel Alba, who was also in charge of the production. An additional cover song was arranged and performed by the same musicians.

Santamuerte won the Artist Grant by **INITIATIVE MUSIK gGmbH** in December 2021 in Germany. Here they participated in round 55 with more than 800 other musical projects, of which 342 were chosen for the financial support granted by the European country.

META-MORE-FUZZ was recorded at Castle Studios in Dresden - Germany, in January 2022. Daniel Alba, besides the production, was in charge of the recording, and then mixing at Megafonic studio. The mastering was done by Oscar Zambrano at Zampol Productions in New York - USA.

The visual arts are done by Juan F. Rojas.

The first single of META-MORE-FUZZ will be released on February 25th.

META-MORE-FUZZ will be released in 3 stages on streaming platforms, in March, June, and September respectively, which will be divided into 4-song EPs. By November 2022, they will be unified into a **DOUBLE VINYL LP**, which will contain an additional song. It will then be available for sale.
