

EET

technical rider

general presentation

Music style: alternative/indie rock

Year of creation: 2011

From: Maribor, Slovenia

Description:

In the late eighties and early nineties protagonists of grunge, punk, metal and other guitar rock dominated the tape recorders of these high school guitar lovers. Through various musical formations of the past (Vojtiva 8, Panacea, Železobeton, Miš pod zero...), in 2011 the boys landed in a four-member band EET. In 2014, the group released their first album "One more", which Hrupmag ranked among the 10 most listened to albums in 2014. In 2020, the harder spectrum of the guitar genre dominated in the released second album "Karolina". In 2022, the band is again looking for a new expression equilibrium with the new single "Brez Mene", which represents return to a more "indie" sound but still remains "Ctrl+Alt+Rock"...

Members:

Dušan Stojanović – guitar/lead vocal

Gregor Reichenberg – guitar

Izidor Mandl – bas/back vocal

Andrej Grabar – drums

Languages: Slovene, English, German, Serbo/Croatian
