TRIBAZIK - 3 Piece

Hedge – Drums, Electro Kit, Samples

Syan - Bass / Vox

Jerry - Gtr / Vox

We have our own 8 way DI box (using 6 DIs) and a 6 way XLR loom to connect to stage box. Samples L/R, Bass, Gtr, 2xVox processed through laptop onstage.

Vocal are pre processed (EQ/comp/delay) and just needs a flat channel.

Outboard:

6 channels gates

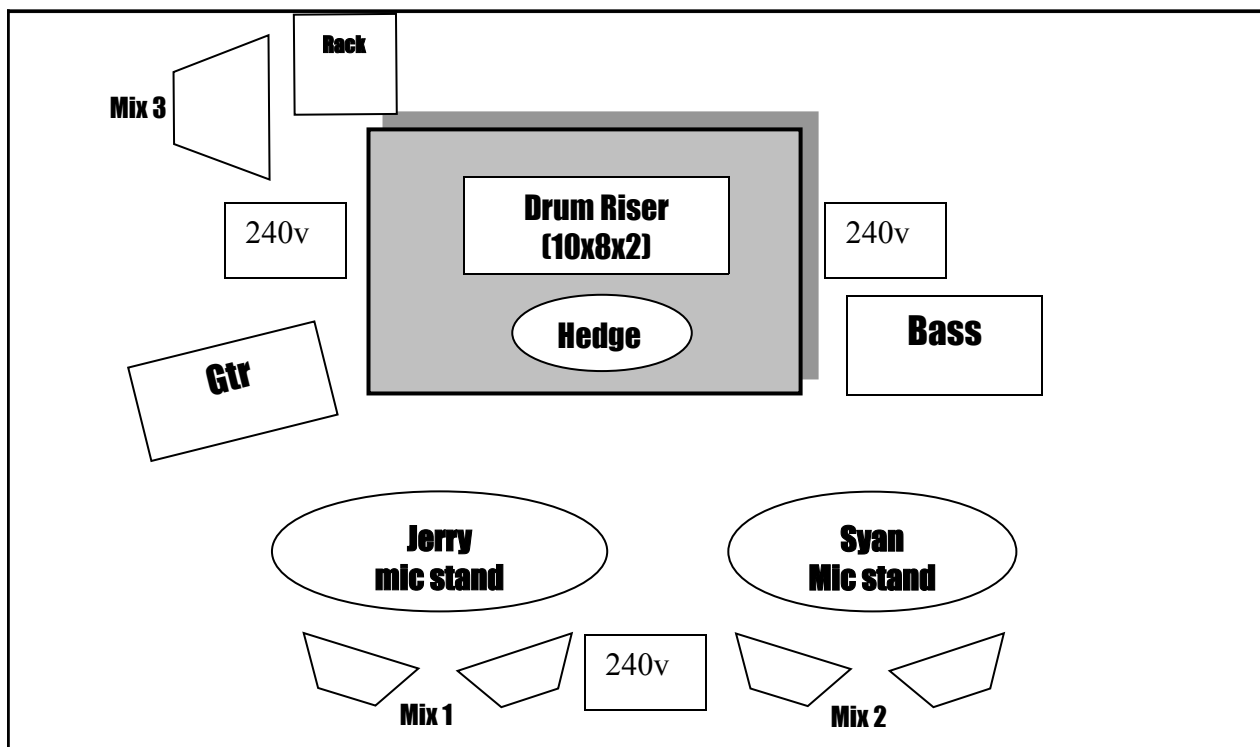

6 compressors

2 reverbs

We usually have 2 projectors and 2 screens either side of the drum kit.

NB.Wedges should be bi-amped, preferably SM15's.

The Drum Fill should have a separate sub and must be positioned stage right.
