After releasing love song Shery M Music Videos was also spotted on some European Music Channels. How ever this is not where the list finishes cuz Shery M has been Acting as a kid in Persian series called (Vakil) but later because of Country situation she was not able to freely express her self as an actress how ever she use to act after that in theatres and some side roles in different Languages as well.

However Shery M is mostly focused on her music but she had always so much love & talent fr acting in different roles.
