

ARTIST BIO – ANAÏSA [ana'isa]

Raised between two cultures in a violent home: Anaïsa always felt out of place and left home at the age of thirteen. She always had trouble fitting in – apparently she was too loud, too demanding, too emotional – and was told on many occasions she was not skinny enough to be on stage. But Anaïsa cannot be kept down. She has been working as a professional singer and touring the world since 2014. The singer, songwriter and entertainer creates her own home in pop music, coming to terms with everything that moves her in her lyrics. The message of Anaïsa's music is loud, clear and empowering: I am female, I am limitless, and I do whatever the hell I want. Hence the name of the genre she fittingly named 'Female Power Pop'.

Anaïsa's first single 'Kalimba' has gathered more than a 100.000 organic streams within the first few months of its release in May 2022. She followed it up with power anthem "Better Without You" in August 2022 and both of her singles have been immediately featured on a variety of German radio stations like RBB Fritz, Delta Radio, SR 1, Radio Essen, Radio Bochum and Antenne Düsseldorf.
