**"Dj'ing and producing is my passion and only love in life. Nothing gives me more pleasure then seeing people dancing and having fun, and when you're the person who is in control of this it is something truly magical. I'm a professional at every level and this shown either when I am on stage Dj'ing or producing music."**

# "QUOTE"

What makes Frox such a unique producer and an astonishing Dj is his ability to hold the crowd and keep them wanting more and more, especially playing to a huge crowd at peak times, playing house, Tech-House and progressive house, plus mash-ups and remixes he makes.

He really excels when he mixes on 4xcdj's or turntables, that really opens up his creativeness and showcases his skills as a Dj.

He loves to mix 2 tracks together then drop a vocal or sample of the two playing tracks.

Asking people after the have seen him Dj the have said

"its like something we have never heard before, truly an amazing Dj and unforgettable experience".

As a producer making house, Tech-House, Commercial Progressive house his skills lie in his perfection, laying samples, sidechaining basslines and tweaking synthesizers to fit his own unique sound.

He intends to bring EDM music on a massive scale to the people and to change the way we listen to EDM music forever, whether this is showcased in his Dj'ing performance or production.
