BAND

HANNA:

- Vocals
- Acoustic guitar*
- Percussion*

JANNE:

- Laptop (2ch, need DI-box)
- Backing Vocals
- Keyboards*

Other musicians*

**optional for bigger gigs*

BACKLINE

Backline needs for gigs outside Finland:

USB midi keyboard, 49/61 keys, preferably AKAI MPK249. Please contact us in advance to confirm that the keyboard is ok for us.

Mics, DI, monitor wedges.

INFO

Basically we need two mics and a stereo DI for laptop. Also provide 230V power (x3). Both of us want an individual monitor channel with a wedge that gives enough bass. Hanna's vocal can be treated with lots of reverb/delay - we trust the venue sound guy to make it sound good. We're happy with the PA and lights you can provide as long as the PA has some sort of subwoofers :)

Minimum 30min line check required, 60min sound check preferred if possible.

We use Ableton Live for backing tracks running on a MacBook. We bring our own controllers except the midi keyboard which we need from you. On some gigs we bring acoustic instruments and other musicians, but we'll let you know if that's the case. We'll also provide a detailed stage plan if it differs from the one in this rider.

Feel free to contact Janne with any technical questions. Email works best.
