- XLR input for in-ear monitor system x1
- Strong and steady music stand\* x2

*\*The music stands should be able to hold a MacBook and a small synth (Arturia Microfreak).*

## Stage plan

Audience

## Stage lights and smoke machine

- Predominantly use red + blue + purple.
- No green lighting should be used.
- No bright front lights should be used.
- Strobe light should be used for intense moments.
- Lights should be only red during the song "Redrum"
- Smoke machine is required.
- The stage should be filled with smoke throughout the whole show.

## Soundcheck

- Soundcheck should take place in advance and last for 1 hour.
- Early soundcheck is preferable.
- Backline has to be set up before the soundcheck.

## Dressing room

- A dedicated room or space with a mirror and lights are needed.
