”

“Nación Quilombo is born to accomodate a more intimate and personal García, but also more danceable and singable. In the Quilombo, that place where the slaves meet to create community, communication and time for a new life with freedom as the horizon, hope and dreams. A boat-nation where to travel in search of a lighthouse between Ordes and Cape Verde, Muros and Kourou, Nigrán and Brighton Beach, Compostela and Puerto Arista, integrating diverse rhythms, sounds, metrics and, over all, plenty of heart. Nación Quilombo expands all over the world. García Mc, rapper from the land, governs the boat in search of ports where to moor and caress your emotional system. A new project that starts on our music seas with means of overthrowing frontiers far away from our borders”
