Technical Rider - LwaSun

Artist: LwaSun
Birth name: Babalwa Tom
Analog Synthesizer Electroica Dance and Acid

Instruments: Korg Arp 2600, Korg Volcas (Bass, Beats, keys)
Korg volcas (x2) input the Arp 2600, the Arp 2600 output into the mixing board, then one korg
volca output into mixing board.

What is needed for my setup: I have my own mixing board, this is however heavy and to bring it
along, there is extra travel costs needed as I will need to take a taxi to move around with it.

- Mixing Board
  Behringer Europower Pmp600
  4 or 6 Channel is fine

- Speakers
- Cable output from mixingboard to speakers
- Mic Stand
- Monitor R+L
- Plug extension cable
- Table
