

“Hi guys, thank you for a great show! It was just an amazing performance. I got excited at the moment the band got on stage, having this quirky intriguing appearance. And then I got excited for the second time as soon as I heard the deep velvety vocals with heavy riffs which has always been my favorite combination. The show was interesting to watch and listen to from the first to the very last song - so huge applause for the passion & talent”

Inna Lytovka (Project Manager / Music Export Ukraine / Hipgnosis Song Management)

“I really enjoyed your show and felt that everything was well prepared. From the very beginning: your uniforms, stage behaviour and what is the most important - your music. Especially the uplifted, rocky songs. The ending, when you went to the public - epic!”

Marcin Bakiewicz (Programme & Music Director / Eurozet/Antyradio)
