

TECHNICAL RIDER DR.NOJOKE

MY EQUIPMENT

- Laptop
- Microphone Sure SM58
- Kaoss-Pad
- Boss Voice Transformer
- Radio
- Stylophone, Korg Monotron
- Motu Ultralite MKIII audio-interface
- 2 controller - Launch Control & Korg nanoKontrol
- Instruments: toy accordeon, plastic bottle, radio, jew's harps, percussions, flutes, whistles, souvenirs and more.

WHAT I NEED

1. Space for equipment: approx. 1.5m wide, 1.0m deep, 0,8m to 1m high
2. **Do not place me beneath or underneath loudspeakers** to prevent feedback through my microphone.
3. One microphone stand with a boom http://g-ecx.images-amazon.com/images/G/01/musical-instruments/detail-page/mus7701b_img3.jpg or table-version: http://ecx.images-amazon.com/images/I/31xxP+2f7pL_SY300.jpg
4. 110-220 Volt, power socket with 5 outlets <http://en.wikipedia.org/wiki/Schuko>
5. Please provide a spotlight (red/orange or blue/violet) on my performance-space.
6. I always play with the front to the audience.

I send out one stereo-signal: Two ¼ inch mono-jacks.

I perform without monitors!

SOUNDCHECK

One hour for soundcheck before the venue opens

- half an hour for setting-up my equipment, another half an hour for the soundcheck.
- All equipment should stay as set-up until my show.
- Equipment should stay safe.
- Please note that I need 20 minutes for packing my stuff after the performance!
