SNUMEN – Punk-Rock/Post-Hardcore from Ingolstadt / Germany

Prologue – 2020, a dark year for **SNUMEN**: After a long concert pause caused through temporary employment abroad and parental leave of some members the 4 guys wanted to hit the ground running. Then came the pandemic... As if that wasn't enough more bad news came in summer 2020: Founding member and bass-player Rotti left the band after almost 9 years. The rest of SNUMEN did not doubt for a second that they had to continue and so began:

Phase III – Fortunately a replacement was found soon with Lorenz – the bass-player and singer of the Ska-Punk Band Rafiki. He brings new grooves to the **SNUMEN** sound and enhances the male choir. After one EP and 2 full-length albums they are working on the concept album "The Aftermath". The album will be released in EP-format chapters and the first chapter "No Way Out" is now available on all platforms or as a physical copy on MC only. The next chapters are in production - stay curious!

SNUMEN play Punk-Rock with melodic guitars and duophonic choirs, taking turns with Metal-Riffs and Hardcore-Screams – an intoxicating combination, especially live!

SNUMEN are:

- **David Speth** – vocals/guitars,
- **Thomas Graf** – guitars/vocals,
- **Lorenz Hüttner** – bass/vocals,
- **Tom Ploner** – drums
