## TECHNICAL RIDER

Providing a furniture piece for setting up DJ equipment according to the dimensions given below.

### TECHNICAL REQUIREMENTS:

The workstation should be stable and free from vibrations caused by the sound system.  
Providing a sound system tailored to the dimensions of the room, but not smaller than 2 speaker columns of 1KW each and 2 x 1KW sub-bass.

Providing an independently controlled monitor/speaker placed on the right side of the console.

Supplying AC power to the DJ console with six outlets.

The client takes responsibility for any damages incurred by the Contractor due to the fault of the Client or their subcontractors or event participants, related to equipment damage or loss.

### OTHER REQUIREMENTS:

Providing mineral water (4 x 0.5l) at the DJ console.

Providing a warm meal before the performance.

Providing parking for a personal car.

Providing accommodation with breakfast in a minimum 3-star hotel.

In the case of performances outside of Poland: flight, transfer to and from the hotel, a minimum 3-star hotel with breakfast.

If the provisions stated in the DJ Rider are not fulfilled, the DJ has the right to refuse the performance (which does not release the Organizer from the obligation to pay 100% of the agreed fee).
