

Corn Potato String Band - AMA Application 2015
Technical Rider and Stage Plot

- We need two channels plus phantom power:
 - 1 large-diaphragm condenser microphone (e.g. AT2020) on boom stand - 1 dynamic or condenser mic (e.g. Shure Beta 57) for guitar on boom stand
- We also require the following:
 - 3 armless chairs
 - 3 instrument stands
- We can travel with our own large-diaphragm mic (AT2020) and phantom power supply in case such supplies are lacking. We can also bring our own instrument stands if necessary.
- We are also happy (and in fact prefer) to play completely acoustic when appropriate.

CORN POTATO STRING BAND
STAGE PLOT - SUMMER 2014

3 armless chairs

3 guitar stands

1 large-diaphragm condenser mic on boom stand at center of stage (AT2020 or similar) – we can provide if necessary

1 dynamic or condenser mic for guitar on straight or boom stand, left of center

NO MONITORS

Note: We are happy to play completely acoustic whenever possible. Contact aaronjonahlewis@gmail.com with questions.
