

# Parade Technical Sheet (showcase)

Hello, we are La Parade a French Electro-rock group focused on the text and therefore on the lead voice, our live configuration is not very complex, we bring some of the equipment but we require certain technical elements on site.

We need a monitor system with side fills and wedges if the stage and room size is substantial. Our requirements are flexible and we are ready to adapt to the technical specificities of the room.

## **2 or 3 people in the group (showcase training) :**

- Victor HERAULT, singer + DJ
- Sébastien MOREAU, guitarist + choir
- Laetitia HUGUES, synthesizer + choir

## **What we have :**

- 1 SM58 for the lead voice 1 effect pedal (delay reverb) as an insert between the mic and the console 1 Fender Telecaster guitar + 1 VOX 50W amp
- 1 Cort electric guitar
- 1 stereo output synth

## **What we need :**

- 1 voice mic for Sébastien + 1 di with DAW amp simulation or 1 mic to peak the amp
- 1 vocal mic for Laetitia + 1 di with DAW amp simulation or 1 mic to peak the amp 1 peaked microphone for the guitar amp + di or possibly more powerful amp
