

BRAVE HEARTS FACTORY TECHNICAL RIDER

Singer (Paolo Delle Donne)

It has its own Shure condenser microphone. Requires an online entry on the in-ear monitor system he wears habitually.

Guitarist (Massimiliano Rizzo)

It is equipped with a pedalboard (ME-90) with preamp on it, so it only needs an inline input on the system.

Bass player (Alessandro Poddie)

It possibly needs an amplifier but, in case of unavailability, it can use its own. He has its own effect that it manages autonomously.

Drummer (Marco Ceccarelli)

It is NOT equipped with drums and therefore needs a complete drumkit (Bass drum , snare charleston, Ride, 2 crashes, two tom-tom).
