The songs will be sung by me and performed on track, and some acoustic, started by the band.  
The band will be using in ear monitors.

### Needs:

Three mics with stand (wireless if possible)

Small table for laptop

Bass amp

Drum kit

Three Guitar Stands

Keyboard

### Inputs:

Tracks: Stereo DI

Click: DI

Vocal: SM58

Elguitar: Ampsim - Stereo DI

Elguitar 2: Ampsim - Stereo DI

Acc guitar: DI

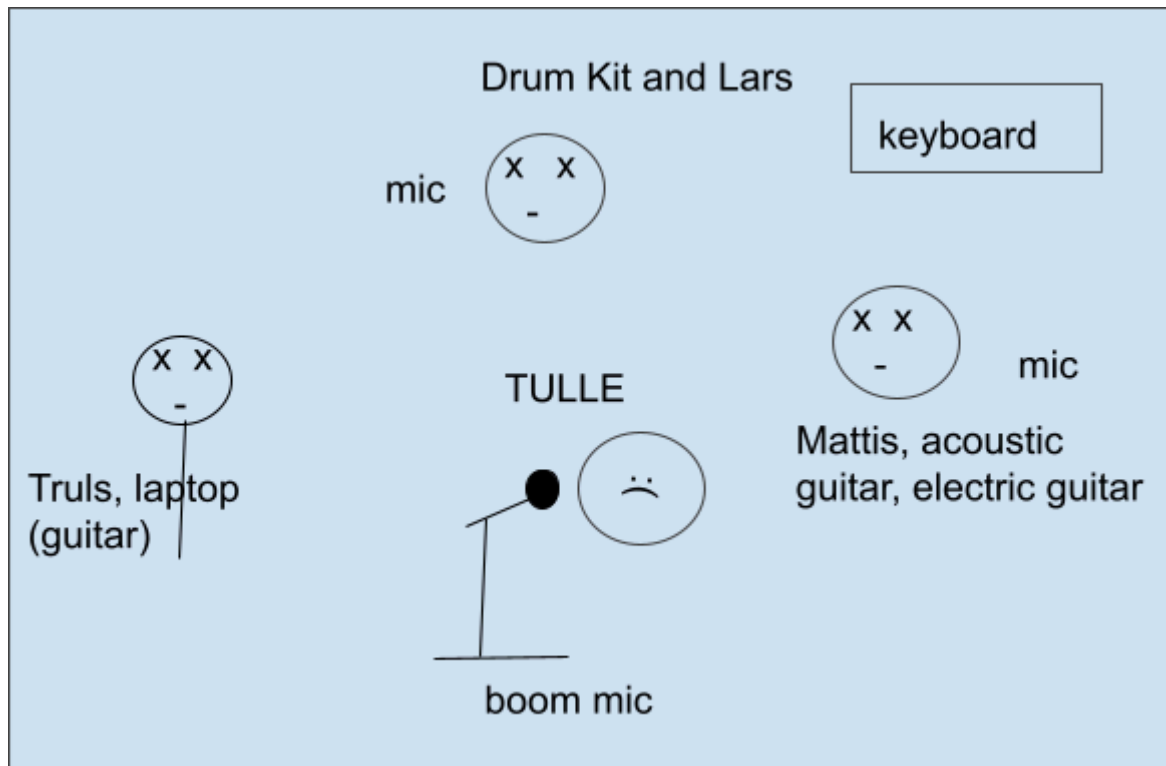

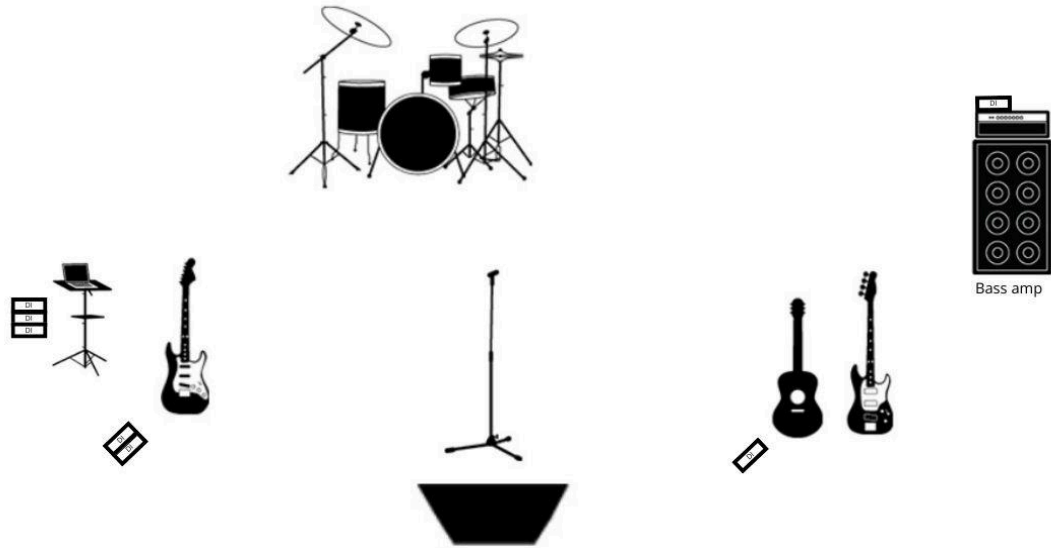

Bass: Amp (+ DI)

Drums: Basic drum kit

### Outputs:

3 XLR Cables (6 for stereo if possible) for inears

1 Wedge for the singer

### Lights:

I would like a lot of flashy, white lights, and possibly some blue and red. Very showy, fun lights. For more acoustic songs, a more dim lights would be ideal.

**Notes:**

Will bring Merch, so will need a merch table.

Will also put Halloween 'activities' around the tables: temporary tattoo station, decorate your own mini coffin station and color your own ghostie station.
