

Gato Preto

Electronic Baile Beats with female live MC

The mysterious black cat is a music project by Gata Misteriosa & Producer Lee Bass. Gata spent her youth at clubs in Portugal dancing to all different flavas of Portuguese Club Music which nowadays became influenced various Dance Music genres. Kuduro, Baile Funk and different tastes of Brazilian and African influenced sound became part of her nightlife.

Lee was inspired by his dad who used to be a Black-Music DJ in the 80s also playing traditional West African music like High Life. Without even knowing how heavily he was influenced by these different rhythms these later became part of his productions and remixes.

This project is a journey into Gato Preto's interpretation of all these styles which crosses boundaries to Break Beat, Dub Step, House and other Dance Music genres.
