With a blend of Dancehall, UK Rap and African culture, this track is destined to be a hit. Money Mykez brings a different approach to this track, singing a melodic hook rather than his usual Rap takes.

'Lose My Number' is a track surrounding relationship issues which conveys the message of ignoring and rejecting calls from a casual partner who you had an intimate relationship or encounter with. It details drawing a line of boundaries and not accepting disrespectful behaviours.

Money Mykez is based in the city of Southampton, where barely any artists get a chance to hit the mainstream. He's demonstrating how huge he can be in the near future. This track should be featured on your blog because we would like to make your platform the first discovery of this song, especially being noted when this track becomes a success.

Money Mykez, formerly known as Mykez 2Nation, has previously featured on blog sources such as Mixtape Madness, The Pit London, RIDE Music and A&R Factory. His music style is Afroswing, which is portrayed on his 2024 single 'Corazón'.
