CURRICULUM VITAE

BIO

The Antillean Artist Corne Van Der Heijden, hailing from Curacao N.A., was nurtured in an environment rich in various musical styles that continue to flow through his veins, defining his sound today. His journey into DJing commenced at the age of 12 when he became captivated by the art of playing vinyl. At 18, he moved to Eindhoven, The Netherlands, for his studies, believing this would signify the end of his musical pursuits. Contrary to this belief, it marked the beginning of a remarkable new chapter, leading him to embrace his passion for electronic music.

His musical journey has garnered significant attention, and his extensive collection of released and unreleased original tracks has established him as a highly sought-after DJ for various events, whether utilizing “digital vinyl” or performing live. This multifaceted artist is poised to energize numerous dance floors. His musical style is profoundly engaging, traversing genres from house to techno, interwoven with classic influences, consistently retaining an underground allure that is entrancing. He emphasizes the importance of connecting with his audience, as he believes that the true value of music lies in the collective experience it creates.

QUOTATION OF THE ARTIST

“We are the transitional generation. This is our dance. Thank you for the gift of sound, vibrations and all those that make it happen. I love every second I spend dancing to any beat that fills my heart. A special thanks to you that feels the same and danced by my side. It’s nearly time to play and set the date, great vibes and sick beats coming soon. Dance, Love, send out your positive Frequencies and be Happy”
