PABLO DENUIT

PERFORMANCE DJ / PRODUCER

BIOGRAPHY

Pablo Denuit a.k.a Mike Christofakis has always been passionate about music since he was a young child in Greece. The only way for him to express his love of music was through DJing and producing. At the age of 14 he started building his own studio and practice while making edits and mashups to play at his gigs. After making many remixes, mashups and bootlegs with some of the biggest name artists like Tiesto and David Guetta, his passion led him to embrace the idea of becoming an international DJ and he left Greece for Miami to sign a record deal and release his first album. Since then he has performed in many clubs and festivals and venues worldwide for hundreds of thousands of people and has a large fan following on social media. Pablo is best known for his versatility, being the party starter and for his unique style of striking emotion by combining different genres of EDM together to create powerful tracks and diverse sounds. When not in the studio you can find him behind the decks with his high energy making people smile and dance with the best tunes in the world.
