

NEODYM is the solo music project of vocalist, songwriter and performer Patricia Neodym. Her sound blends electronic pop, EDM and atmospheric soundscapes, creating music that is at once dance-driven, emotionally charged and artistically refined.

What sets NEODYM apart is a strong and distinctive stage identity. Her futuristic aesthetic draws inspiration from robotics, sci-fi and new technologies, complemented by a signature stage symbol – a magnetic cube, referencing both her name and the magnetic impact of her music. NEODYM's live performances exist at the intersection of electronic music, performance art and visual storytelling.
