TECHNICAL RIDER

EQUIPMENT NEEDED | P.A.

<http://www.andersonfalcao.com.br>

Head coach:

Dinho Filho

E-mail: alcideslomanto@gmail.com

Tel: 71 9169 7657/9665 9514

For security purposes, all stage structures and PA wings should be guyed with steel cables and properly grounded. In case of outdoor performances, prefer hiring stage having a good side closure and back, thus avoiding the cancellation of performances because of rain that can soak the stage and the equipment. Remember that only in case of Public Calamity submission may be delayed.

P. A. INFO

Mixing consoles:

01 (one) PM5D-RH console, Souncraft Vi4 or Vi6, Digico D5 and D7, VENUE Profile.

Systems of P.A.

The sound system must be mounted on Fly PA scheme to 1 meter at the front stage and should be sized according to the size and location of public capacity.

Companies that are not registered in our relationship (see pre undertakings approved in annex) should contact the technical artist, as far in advance as possible so that we can have the information necessary for approval of the hiring.
