TRAVELLING CREW : 1 person

Andrius Laucevičius - Laptop, controllers, synths.

PARKING

The artist requires one parking spot for each of the vehicles/trailers they are driving to the concert. The parking spots need to be close enough to the stage that equipment does not need to be carried more than 20 meters. If this is not possible, there needs to be a temporary place to put the vehicle that carries the equipment close to the stage, so that the artist can put the equipment on the stage. Then the vehicle/vehicles can be moved to a different place, no further away from the stage than 100 meters. The parking spaces must be safe and shielded from the audience.

HOUSING

Artist needs a single room. Room needs to have its own clean bathroom with shower and toilet, clean towel.

There should be unopened bottled water readily available for the artist, either in the rooms or by request.

Room needs to be lockable, and during the stay, no one but the artist and his crew can have access to the room.

There needs to be sufficient, safe parking for a car.

FOOD

The artist is not vegetarian. Fresh fruit, bananas, pears, etc, should be available at all times. Unlimited quantity of still water, two liters of pineapple juice.

The artist requires at least one warm meal before the concert, two if the day is long, example: The sound check is in the middle of the day, but the concert is late in the evening. There should be food available in or nearby the accommodation. But access to beer after the concert is appreciated.
