

# Kebu - Technical rider

**MIX LINE OUT (L+R)**  
**(2 x XLR-XLR DI BOXES NEEDED)**

## Input list

- Mix Left
- Mix Right
- Microphone (speech between songs)

## Equipment needs

- One small floor monitor (monomix of left and right)
- Microphone and a sturdy stand with a long boom

## Stage lighting requirements

- Preferably both stationary and moving lights
- Kebu supplies a set list with broad instructions for each song (the light engineer has free hands to improvise).

## Other requirements

- Load in and setup takes a **minimum of 4 hours (!)**
- 1 person needed to help with load in and load out
- Sound check typically takes only 15 minutes, since everything is ready mixed with Kebu's digital submixer
- The synth setup **may not be moved or touched after sound check**
- Load out after show takes 1,5 hours
- Outdoor gigs: Stage must have a roof (to protect the synths from rain)
