

ALOGIA

- Stage Plot & Rider -

The stage plot is just for info, where we are on the stage.

- Guitarists use Lie6 HD floorboards with DI outs, they need monitors
- we have 2 Keyboard / one plays the basguitar lines, so we need 1 di box and one BAS AMP
- we don't need no backvocal mics, just 1 stand for the lead vocalist
- we need at least 4way monitoring: 4 lines and 4 separate monitors on the stage

Channel List
