

# Sons of Morpheus

Sons of Morpheus is a psychedelic-rock trio from Lucerne, Switzerland consisting of Manuel (guitars, lead-vocals), Lukas (bass, backing vocals) and Rudy (drums). The band might be accompanied by up to 3 crew-members, depending on the situation. All band and crew-members speak german and english, some speak kind of french too... Please check and share [www.sonsofmorpheus.com](http://www.sonsofmorpheus.com) for any infos.

technics, band: lukas, [lukurmann@gmail.com](mailto:lukurmann@gmail.com), +41 78 819 01 58

## requests on stage:

- non sparkling water and beer for the band and crew
- drum-carpet
- towels, if you have them around
- drum-raise if it makes sense and if you have one
- PA and 3-way monitor system, set up and ready to rock
- microphones, DI-boxes, stands and cables for everything except our own backline
- at least one person taking care of technics

## general requests:

- We have a van (Fiat Ducato, LU 236356) that likes to be parked as close to the stage as possible the whole day of the show... well likely possible the night and morning after the show too... cheers!
- If there is enough space at your venue, the band/crew loves to have a seperate area/room (preferably lockable) to store their private stuff.
- Band and crew like to have a warm meal (carnivores) before or after the show and free drinks during the whole time being at your place. A bottle of whiskey backstage is highly appreciated (band and crew enjoy sipping a little shot just before going on stage.)
- If you can offer us a place to sleep, that is very often like heaven to us. please check with us before if it's needed or if we hit the road again the same night.

**Thank you very much for having us!**
