

NICE LEGS

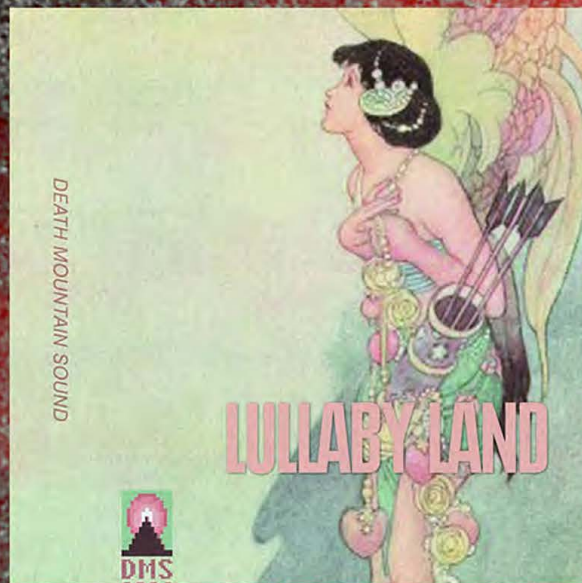

BIOGRAPHY

Nice Legs is a "Dream Pop" duo based in Korea. In little over a year since their inception, Nice Legs' has impressed audiences in venues across East Asia, including Seoul, Tokyo, Taipei and Shanghai, with a style ranging from strange and ethereal to outrageous pop rock, mixed with playful audience interaction. Nice Legs prides itself on being a band that puts on unusual shows in unusual settings.

They've also received worldwide attention for their EP "Lullaby Land" which caught the attention of radio stations, magazines, and music blogs in the UK, Spain, Slovakia, the USA, Australia and their home turf, Korea, as well as its neighbours, China and Japan. Part improvisation, part mayhem, all passion and intensity, Nice Legs consists of Frankenbass inventor and maniac, Henry Demos, on guitar and bass, and his alternatively cute and terrifying co-vagrant, Lewtrakimou, on vocals.
