Patrick and Tiziano, now better known as TECH AND SCHWEFEL, decided to combine their talents in 2013 and have since performed as a team. They both brought their experiences and preferences into this project. As a result of the combination of their strengths, their sets seemed to captivate audiences through the groove and soul of their fused style.The musical range of TECH AND SCHWEFEL varies from deep techhouse to driving techno.
Their style has been strongly influenced by powerful performances from Extrawelt, Pan-Pot, Stimming, Luciano as well as Laurent Garner.
Impulsive, electrifying but also melodic and playful - music: ON | world: OFF!

Furthermore they also run their own Event & Booking Agency, which has drawn a large following in the category of ‘electric partying’ in the Bavaria region. This Dj Duo therefore does not only perform their own phenomenal sets, they also regularly put together events that always please the crowd and guarantee a great night.

The events organized by Tech and Schwefel also draw some big names with recent bookings made such as
Marco Bailey, Luigi Madonna, Tiefschwarz, Ruede Hagelstein and Format:B.

The name PITCHLABOR stands not only for continuous quality party experiences, but also for quality podcasts with "PITCHCAST" promoting their own artists and "SELECTED ARTISTS" national DJs.

Music is the answer - one love
