Dantanna

What's right is right

Known for our super-charged, high-energy performances, Dantanna is a UK-based hip-hop, funk and soul music collective that is currently on the rise across the UK gig and festival circuit. We're in the process of completing a collaborative album featuring Roots Manuva, Lee Scott and other notable artists with the hip-hop label, MCT Productions.

Dantanna is a LIVE 8 piece - HipHop/Dance/Ska/Dancehall/D'N'B/Bigbeat/Soul/Punk/Funk
....all round good time, big vibes party band!
(note - the live band is modular down to live PA/DJ sets)

In 2015 we managed a successful run of festival appearances in the UK,
having performed a headline set at Blissfields Festival and Surplus Festival
and appearances at Y-NOT? Festival
as well as a slot on the HipHop/Urban mainStage - Poco Loco at BoomTown,
to name a few, which are big party festivals as you may well know.
Be assured we hit our shows hard and work the crowd big time...

Dantanna live always delivers and never fails to get the ground shaking and the party jumping!

Featuring a selection of well-seasoned vocalists and musicians, the interchangeable
Dantanna lineup features live vocals, guitar, bass, brass and drums alongside
....old skool hip-hop samples and Moog madness.
