

GENERAL

This rider specifies everything needed to give our best show. Some alternatives can be negotiated beforehand. It is **important** that we get notified in advance if there are any problems, otherwise it may be too late to solve them during the same day of the show. If you cannot meet some of the conditions listed here, please do contact us immediately.

DRESSING ROOM

Safe, clean, comfortable and with room enough to accommodate 6 people comfortably. If there are no showers in the dressing room/s, they should be provided in the hotel.

CATERING

-Food: various fruits, bread/toasts, ham/cheese, chocolate, snacks (nuts, chips, etc.), etc.

-Drinks: juices (orange, apple, pineapple, etc.), water (no gas), sodas (cola, etc.), beer (a lot), coffee, milk, cocoa, etc.

-There should be sufficient catering for the whole band and crew.

Dinner:

- Meal for 7 people.
- The band should know the hour of the dinner's serving beforehand. If Northland's concert happens in the evening/night, dinner should be at least 2 hours before the show.
- Dinner should be a solid meal and consist of different types of nutrients and food.
- If no option is available for dinner at the venue/festival, a place to eat near the concert should be booked and paid by the organization.
- A lot of bottles of water will be required on stage.

TRANSPORTATION AND ACCOMMODATION

- The organization will be in charge of booking appropriate accommodation near the venue for 7 people (hotel or similar place with beds, toilets and showers).
- Whether the band travels by plane or by van, will depend on distance, transportation costs, etc. This issue should be negotiated with the organization in advance.
- Transportation: if the band is travelling by plane, transportation should be provided from the airport to the venue and back. In case the accommodation place is far the venue, there should also be transportation available between both.
- Parking: if the band is travelling by van, a safe place with good visibility and with the necessary security must be provided with no extra cost.

OTHERS

- We bring our albums and T-shirts (different models): our merch guy Albert will need a table/stand (1m wide minimum). If the merch is sold by the festival Albert will explain and take care of it.
- Northland is capable of playing for around 90 minutes, but of course the setlist is adaptable to any conditions requested by the organization.
- A towel should be provided on the drummer's seat.

GEAR AND TECHNICAL REQUIREMENTS

- Please check the **Technical Rider** document attached for stage plot and equipment brought/needed by the band.
- An approximate 40-60 minute **sound check** would be really appreciated but the band can adapt to shorter requirements if needed.
- Change time between previous band and Northland should be **minimum 15 minutes**.
- Sound** and **light engineers** are needed for the show and should be provided by the organization.
- Local team can provide help in loading in/out. It's always welcome, but optional.
