

Take Down The Sun - Rider

Our group consists of 5 band members, plus usually a sound technician and 1 to 5 others (photographers, crew, partners).

For food, we would like it to be served around 5pm, or if we're not yet on the location at that time, shortly after we arrive. We prefer to soundcheck after at least half an hour after we finish the food. We have no vegetarians, meat is a preference.

We'd like some beers per band member, usually one crate for the whole band suffices. Rum is a preference but not required. For non-alcoholic drinks, we like all soft drinks with the exception being light-products. Monster Energy (especially the green one) is a preference but not required.

Wage is discussable.
