

jonimond

TECHNICAL RIDER DJ SET

Jonimond always arrive with his own Setup,
so there is not much to do for the Organizer:

Monitor speaker(s): one (or two) near the DJ setup, level controllable from the DJ mixer
Jonimond prefers that his mixer is connected to the soundsystem directly
and do not loop the audio signal through another DJ mixer

2 free 230V sockets are necessary

Jonimond will bring a laptop + external controller(s), so ca. one meter of workspace is required.

About 20 Minutes bevor regular Set-begin, he needs to build up his System,
but theres no need for any soundcheck before,
in care its a good working sound-system in place

Adequate alcoholic and soft drinks throughout the night would be comfortable

Jonimond's Guestlist should have a maximum capacity of 5 People

No recording of the performance in any digital or other media
format - without permissson of the artist or label - are allowed!

The promoter agrees to provide the artist with a private vehicle and a
competent licensed driver for all ground transportation between airport,
hotel and venue during the artists stay.

In case you have any questions, we kindly asking you to contact us,
in sufficient time to clarify all the technical data or matters.
