Press Release

Small Depo is post-punk Kiev based band, Ukraine, founded in 2014.

Originally band was formed by Max Ischenko as one-man band, who writes all lyrics based on personal experience of travel, DIY actions and personal life which actually happens. He released his first same titled EP as one person on Ukrainian label AORTE on cassettes and understood – there's need in live bass and drums. That was the start of formation of Small Depo, which is now:

- Max Ischenko – vocals/guitar
- Asya Makarova – bass/ back vocals
- Sasha Semenov - drums

In 2015 band released 2 singles and album Brodyaga, which was noticed by MOON Records and successfully released on November 20 on iTunes and Google Play.

In December, band released video on song Okna, which got in rotation by few Ukrainian channels & portals, as RU TV, A-One, PR See, M1, YOVI.

Band did a tour around Ukraine in 2016 spring to support released album

Band was also highly appreciated by different post-punk communities and got into rotations around the world, as on the X-Ray Fm based in Portland, USA and 1978 Radio Show, Portugal, and got into top-20 post-punk albums by Stereo Embers Magazine!, USA.

Band self-titles its style as homeless post punk, as far as all lyrics are about hitchhiking, personal experiences, love, people they meet and, sometimes, loneliness. This mix brings nice vacuum of melancholia of musical instruments to its listeners and is supported by dreamy vocals.
