

CAPITAN AMOR

On the fifth day God created the Telepaths

Blending a unique use of sound with an other-worldly persona, his work illuminates an inner world of emotion which intentionally challenges or takes the audience outside their comfort zone.

CURRENT PROJECTS

CAPTAN AMOR

A romantic hero

Dance pop harmonies with an extremely polished sound developed for performance by a **One Man Band**.

Elegant Electric guitar, sound effects, DJ, sampler, sequences and distorted voices.

A weird aesthetic which aims to penetrate the thin emotional skin of modern man... and get him dancing
