

TECHNICAL RIDER & STAGE PLAN

First of all, thank you for your interest in booking a show for Tragacanth. Below is a list of our technical requirements. It might sound a bit formal to you, this is not meant to cause any inconveniences on your behalf. We designed this rider for optimum effectiveness at the day of the show. If there are any questions or if you have trouble providing any of the below mentioned please get in touch with us before the day of the show and we will work out a solution.

OUR STAGE SETUP IS:

- 1 Drumset
- 1 Bass Guitar
- 1 Electric Guitars
- 1 Vocals

It is very important that the singers and the drummer each have their own monitor speakers with separate mixes.

CONTACT TRAGACANTH

amplifier has xlr-out or choose
external DI interface

GUITARS

LEFT

Shure SM57

RIGHT

Shure SM57

BACKINGTRACK

Stereo DI or 2x mono

A D D I T I O N A L E Q U I P M E N T

STAFF

We will need a qualified sound engineer, stage technician and lights technician. At the moment we do not have a regular engineer, so we depend heavily on the staff on-site.

BACKSTAGE

A separate room for the band to get some rest before and after the show, if possible

MERCHANDISE

A table of approx. 1.5m length and a small light or some candles for our merchandising in the same room as the show, if possible.

ADVERTISING & PROMOTION

There `s a large amount of promo material we can send to you for advertising purposes. Don`t hesitate to write, if you need posters or flyer and promo templates, logos or pictures in various file formats. Just get in contact with us. There `s no corporate identity in our advertising, but a corporate feeling for what the band is. We appreciate good design, whether it`s professional or just made from the hear.

THANKS A LOT FOR ALL YOUR HELP!
