

BOMBiA

TECHNICAL RIDER LIVE

Table Size: 2m x 1m, approx. 1m height.
1m.

Space for Drums approx. 1,5m x 1m.

Must Haves:

- 1 Pair of full-range monitors with reachable control knob on the table.
- 1 power outlet on the table + 1 Power outlet on the floor in the drum area.
- 1 stereo channel on the main mixer (Cinch or 6,3mm audio Jack).
- Main mixer has to be reachable for adjustments during the performance.

Optional:

If there's not enough place for the drums on the stage, the live setup can be minimized so that only the table is needed.

Time for setting up and soundcheck: approx. 90 minutes. This has to be done before the venue opens.

Performance duration: 60 – 90 minutes
