

Hospitality Rider – Sauropod 2016

Backstage:

Basically anywhere we can stuff our gig-bags, warm up, write the evenings' setlist and sometimes it's cool to catch our breath in privacy right after the show, debrief with sound tech etc.

One crate of beer and four bottles of water backstage is great.

Dinner:

After sound check is fine. Recommended local places, buy-out, any solution you usually go to for bands is great. Note that three of us are vegetarians, so please make sure there's good alternatives for those. :) We prefer not to have fast food, and if possible ecologically responsible.

Accommodation:

Suitable accommodation for four people. Again, we're sure whatever you usually resort to for hosting bands is great, nothing special to add here.

Misc.

If possible, 1 towel per person as well as 1 bottle of water without gas per person on stage would be great.

We'll need a table or other place to sell our CD/vinyl after the show.

Not much more to it, really. We're looking very much forward to the tour!
