“She and the Junkies” combine Glam, Glitter, Psychedelic and Progressive Rock and always have one foot on the accelerator pedal. Because of their energy and self-confidence they consciously serve the one and other rock cliché. These guys from St. Pölten and Vienna call the mixture “Junk Rock”. For Andreas Grubner (Vocals, Bass), Lukas Gutt (Guitar), Matthias Ihrybauer (Keyboards) and Leo Ihrybauer (Drums) this genre of their own devising doesn’t only depict their music, but also their lifestyle.

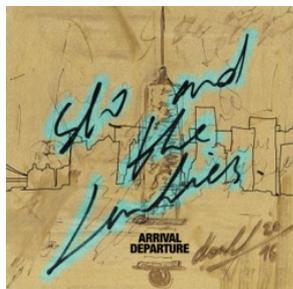

That “She and the Junkies” are a dynamic live band has been proved at many shows, home and abroad. They love being on a stage and they live for the spotlight. Rock music (“She”) is the drug, which keeps them alive, and “She and the Junkies” lead their audience skilfully and self-assuredly on their musical trip.

In June 2015 their self-titled debut album was released on Panta R&E, with whom “She and the Junkies” got signed in early 2015. After that they went on their “Album Release Tour”, which brought them to Germany, England and Scotland for the second time.

In early April 2016 they released their new single “Arrival-Departure”, which originated in close collaboration with the Viennese performance artist “donhofer.” to mark the Warsaw genuflection. Before they started the recording sessions they went on tour across Poland and Germany together to perform on special places and show the world the way they see things. The grande finale took place at the Heldenplatz in Vienna.

"She and the Junkies" are dirty good fun to listen to and are definitely a band to keep an eye on."

Alex Koch, substance is meaningless

"It's a full contact high when you watch these guys fling their instruments through the air and work them with an almost animalistic fervor."

Nikki, rockvideos.at

"Nothing seems faked or contrived in any way. It is this authenticity that gives the sound of "She and the Junkies" its distinctive kick."

Michael Ternai, austrian music export
