MONITORS:

ideally 4 monitors with independent mixes (2 pairs in stereo, one for vocalist one for keyboardist).
In smaller venues 2 independent monitors will be enough.

ON THE STAGE WE NEED:

1 mic stand, 2x 230V power outlets for vocalist

A table min. 80x80cm, 3x 230V power outlets for keyboardist

AND OF COURSE:

Good PA system, well suited for the venue. Even in very small venues we require a subwoofer. We need at least 30 minutes for a soundcheck.

Water on stage would be nice, beer even nicer.
