

Backstage- and Catering-Rider Shambolic Shrinks

We prefer a room for ourselves to warm up and prepare for the show. We like to warm up our voices on a high volume, so it's good if the room is noise isolated. At least as much that we don't disturb anyone else.

We like cosy seats and good food.
A few bottles of STILL water (also on stage)
and a few cans of different lemonades, coke or whatever...

Ice cold beer after the show is a must! ;)

We are just a few simple guy's who love the music.
