

CIRCLE CREEK

HEAVY METAL / Brick by Brick:
Here you find variety and fun in playing music.
These guys are groove, melancholy and gun slingin'
bastards rolled into one. There's something heading our way.
This piece is real fun to listen to. I'll definitely play it more often."

Circle Creek consists of the Twins Chris and Didier Zirkelbach, Georg 'Gorge' Rosman and Bernhard 'Bernado Beat' Wolf. Referring to the band's name, they are surely not to be taken as a sweet and babbling brook, but always the opposite! Like a mighty river, always ready to grow and suddenly being able to turn into a raging torrent! Circle Creek is one of the very few Austrian Cult Bands left, and their very own and distinctive sound is best to be described and compared to a massive wall, being built to never collapse! The essence of the songs are edge cutting riffs, hammering beats, roaring basslines combined with catchy hooks that stood the test of time for decades now!

The Album ANGER was released on the 29th of Oct. 2012 (finestnoise/radar music) and the album's title is program! ANGER combined with rage, passion blended together with strong lyrics and emotions deliver pure and raw energy! The video produced to the titletrack ANGER was decorated with the Rocking-Movies-Award in the category short-list.

Their latest album „The world is on fire“ is expected to be released in spring/summer 2016. For previews go to soundcloud.com

Here are a few of many reviews from the german and austrian press:

MUSIKVERRÜCKT/MUSIC NEWSLETTER (D)

Great piece! – a killer sound roars out of the speakers – a first class production – the singer's voice makes a great difference to the usual screeching shouters while the instru-mentalists build a solid alliance, ...

WESTZEIT, Georg Lommer (D)

Circle Creek are the austrian Stoner-Rock-Sensation per se. Razor sharp guitar riffs and a great voice... the pressure, the untamed rage and this "wall of sound" remain through time and tempo.

MUSIK AN SICH (D)

A mix of well produced, burning from rage and full of passion screaming songs ...

HARD HARDER HEAVY (D)

Dirty guitar riffs which are a mixture between hard rock and "dirt" nice vocal harmonies. Thumbs up!

NOISY NEIGHBOURS (D)

A pinch of desert sand. A whiff of Seattle, drop "d" guitars. A "wall of sound" like "Alice in Chains" or "Pearl Jam". And it's served very hot which makes it fun to listen to, from the very first to the last track of this album.

COOL (A)

New songs, old concept but under the line, cool music and a "must-have": The new album of "Circle Creek"!

METAL ASCHAFFENBURG (D)

Cool thing, real fun to listen to.
