

Stage plot – Royal Prospect

Band members

Oscar Reingsdahl – lead vocals, guitar, piano

Gustav Reingsdahl – lead guitar

Hannes Tingfors – electric bass

Hannes Pennsäter – drums

Backdrop

We will bring a backdrop to hang behind the drums if possible.

Guitar

Gustav will use the amp. He will also need one power outlet for the pedalboard.

We will also need a line box for an acoustic guitar which Oscar will use.

Vocals

We will need 5 microphones and 5 stands with boom arm. One at every musician and an extra at the stage piano (see picture), this is because Oscar will change between guitar and piano.

Stage piano

We will bring our own stage piano which Oscar is going to use. We will need one power outlet and 2 line boxes for stereo. Also, we will bring a smaller stage keyboard which we'll need an power outlet for.

Bass

Hannes T will use the backline and he will need one power outlet for his pedals.

Drums

Hannes P needs a drum set with one tomtom and one floor tom.

We'll need a stand for the hi-hat, two stand crashes and a stand for one ride. Also, we would like all stands to have a boom arm.

We'll also need a power outlet for our sample pad.

Mixing

We want an overall reverb sound, think U2.

Vocals

Should be mixed with reverb and a bit of delay, a big sound.

We got two lead vocals, one at the front in the middle and one at the stage piano. These two should be mixed exactly the same.

Backup vocals

A bit lower volume.

Lead guitar

Smooth mix, a bit off reverb and a deep sound.

Kick

A huge massive kick.
