Genre-mashing pop duo LewRey will release their beautiful new charity single 'Til You Come Home on 2nd October on all major download & streaming platforms. This song follows the success of their latest single 'Never' and last years dancefloor-filling single 'Somebody', which saw the boys play over 250 UK shows, win over festival crowds and pick up new fans every step of the way in 2015.

'Til You Come Home is a pop ballad that showcases Lewis Reynolds' talent for emotive songwriting and soulful vocals alongside Ian Walker's chilled, stripped back beats that really help the track flow. The band have dedicated this single to their dear friend Scott Remmer and the Yorkshire Air Ambulance Emergency Services following a serious Road Traffic Accident that occurred in February of this year, leaving Scott with a severe brain injury. Lewis and Ian both say 'We would like to dedicate this song to the Yorkshire Air Ambulance Service, the hero's that saved our best friends life. We will be donating all of the Single/ Single-Launch proceeds to the charity'. The bands clever 'rescue bird' metaphor helps emphasise the role the YAA helicopter in Scott's terribly upsetting situation. The song displays a perfect balance of love and admiration for their friend and provides recognition for the charity that saved his life. Lewis' incredibly emotive lyrics paint the perfect picture of the emotions that were felt during this difficult time, but also shed light on what is deemed to be a miracle recovery. 'He really is an unbelievably tough character. Despite how serious it was, we always had a gut-feeling he would pull through! We're so happy to see him on the mend. It's so incredibly important that people are made aware of this charity. Unfortunately we'll never know when or if we'll need it! It costs £12,000 to keep the Yorkshire Air Ambulance Emergency Services running for just one day which is equivalent to £4.4 Million per year, so its really crucial that we raise as much money as we can. Please buy our single on iTunes and contribute to this amazing charity.' The song will be released with a brand new VEVO official video.

LewRey's combination of soul-pop melodies, club-ready choruses and indie dynamics has already led to airplay with BBC Introducing and live sessions on regional stations around the UK, and their growing fan base on social media regularly share their inventive medley videos online. The boys' impressive musicianship and energetic live show has also blown away crowds at support slots with Professor Green, Example, Pendulum, The Japanese MistaJam and Aquilo as well as audiences at The CoffeeHouse university tour & various major festivals last summer.
