## biography

The Project Raum+Zeit was founded in May 2012. The artists Eric Morceau and K.H.S. met each other at the beginning of the 90th through their passion of electronic music. They had several mixed projects and DJ activities for years.

Here are some Events and Clubs which they visited in the past as DJ's :

Normal Club (Heidelberg)  
Lemon-Club (Wiesloch-Rauenberg)  
Nature One 98  
Ruhr in Love  
MS Connexion Mannheim  
Loft (Ludwigshafen)  
Alte Gießerei (Heilbronn)  
Mobilat (Heilbronn)  
Neckarlust (Heilbronn)  
Bukowski (Heilbronn)  
Soho/Mnylbar (Frankfurt)

Nachtschicht (Heidelberg)  
Universum (Stuttgart)  
Love Parade (Berlin)  
Airport (Würzburg)  
U60311 - Ubar (Frankfurt)  
Time Warp - Afterhour in the LemonClub  
Sounds of Life - Afterhour in the LemonClub  
Radio HR-XXL - Clubtrax (Frankfurt)

and a few more other clubs...

Now they decided to start a new common project as a result of their previous experience.

## dj eric morceau

At the beginning of the early nineties when I visited the Love Parade by chance, I was under the spell of electronic music!

I started on small parties hang up until the first major gigs arrived ! Early 98' I hang up as a resident in the Lemon Club in Wiesloch-Rauenberg!

There were dj gigs in the Normal Club in Heidelberg, the Lemon Club (Wiesloch-Rauenberg) at Nature One 98, the Airport (Würzburg), the Love Parade and the interlocking Berlin in 2000, etc...

But somehow I wanted to produce this sound by myself and it turned out that I met my former fellow musician "Fossie"! He produced electronic music and persuaded me to a project!

The project "THE EITCH" was created, which became known pretty quickly in the middle of the 90's in the club scene of Heidelberg and Mannheim. However, this cooperation ended after a certain time!

K.H.S. and I met each other again and again to hang up together as DJ's! Since we have played as residents in the same club and we also have otherwise never lost sight, we decided after a long time of friendship to start a joint project! We started our project "Raum+Zeit" together in 2012 which reflects our special and personal taste and our interest in different genres of music.

I was influenced by the following musicians: Jeff Mills, Underworld, Sven Väth, Laurent Garnier, Chemical Brothers, Prodigy and of course many others...

## dj k.h.s.

Even as a child I came in contact with electronic music by artists like Jean-Michel Jarre, Vangelis, Kraftwerk, Christian Bruhn (Captain Future Soundtrack)!

Since my first club visits in the early nineties, I am fascinated with electronic music! These new sounds and music haven't been anywhere in the charts and I got interested and fascinated!

I've taught myself the craft of DJ's! It took a little while until I got a resident job at Lemon Club (Wiesloch-Rauenberg).

On 97/04/25 there was the first party according to the motto "Vernon's the Wonderland" with Frank Kühne (today better known as DJ and producer "Francesco Diaz" - Ministry of Sound, Wormland...) As one of the last highlights we were presented with our club in a separate bunker section in 1998 at Nature One!

This was followed by a lot of appearances in other clubs, radios and events! Incidentally I was employed as a freelancer in 1998/99 for the Subculture Rhein-Neckar-Magazin. I already knew Eric Morceau before our common DJ activities! Our paths have crossed again and again for years and the love to music has arisen a long-standing friendship!

Now in 2012 we have decided to launch the project Raum+Zeit in order to create an own platform on which we operate various musical genres of electronic music! Of course our personal taste is reflected with the project Raum+Zeit!

I was influenced by the following musicians: Derrick May, Todd Terry, Armando, Sneak, Underworld, George Morel, Armand van Helden, Sven Väth, Laurent Garnier, Chemical Brothers, Prodigy, Paul van Dyk and of course many others.....
