

Jakob (bass and vocals):

- 1 vocal microphone
- Either a bass amp or a DI box to play bass over the PA

Joe (guitar):

- 1 vocal microphone
- Joe normally uses his own 2x12 cab with separate amp head. Ideally this should be mic'ed over the PA, but if that isn't possible he has a smaller FX pedal that can be DI'd.

Richard (drums):

- We're flexible on this one, we have a kit however it is more convenient to use a house kit due to transport.
